

VDA

VITRUM

THE
GLASS
COLLECTION

Vitrum is the collection designed by Arch. Marco Piva and winner of numerous awards, including: Compasso d'Oro, RedDot Award, If Design Award and Design Index ADI.

**LOOK.
TOUCH.
LISTEN.**

**THE MOST
ADVANCED
AND INTUITIVE
EXPERIENCE**

VITRUM is VDA's range of Smart Devices that have been designed using truly innovative methods and materials.

The innovative use of an ancient material such as glass, makes for a stimulating tactile experience providing a highly sensorial impact.

Light, essential lines, luminosity and harmony, transform simple switches into items of design with an absolutely unique aesthetic and functional identity. The design is exceptionally versatile and may be personalised through different colors, icons and silk prints.

VITRUM-US STANDARD

Shape, light and sound, merge into unparalleled ergonomics. VITRUM involves sight, touch, and hearing.

VITRUM's buttons are surrounded by a circle of light that illuminates thanks to a proximity sensor making it easy to find it in the dark, while its inviting concave buttons lead your fingers to the controls on the plate.

The device provides feedback through its RGBW LED informing the guest on the status of the system and the outcome of the command.
